INDIA, HIMACHAL PRADESH

OBJECTIVE

A highly motivated Web Developer with expertise in HTML, CSS, JavaScript, TypeScript, React, and Node.js. Passionate about building responsive, user-friendly web applications with a strong focus on performance, scalability, and security. Seeking an opportunity to leverage MERN stack development, RESTful APIs, and problem-solving skills to contribute to dynamic projects and enhance user experiences.

SKILLS & ABILITIES

- Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Tailwind CSS, Responsive Design
 - Backend: Node.js, Express.js, Nest.js, API Integration, Authentication & Authorization
 - Databases: MongoDB, PostgreSQL
 - Tools & Platforms: Git, GitHub, GitLab, Netlify, Vercel, AWS, CI/CD
 - Testing & Debugging: Postman, Console Debugging, Unit Testing
 - Development Practices: Agile Workflow, Git Workflow, Code Review, Modular Architecture
-

EXPERIENCE

2023-2024 Full-stack Developer (**Coding Ninjas** · Internship)

- Mentored students and provided real-time support for MERN stack development
 - Resolved 800+ coding queries, enhancing analytical and debugging skills
 - Delivered solutions using JavaScript, React, and Node.js with hands-on problem-solving
 - Maintained high student satisfaction (4.85/5 rating) through effective communication
 - Collaborated with the tech team to analyze common issues and improve learning outcomes
-

PROJECTS

Store App

Mar 2025 - Present

- Built a responsive eCommerce UI with clean design and product sliders.
- Developed product search, filtering, and dynamic cart functionality.
- Added wishlist (like) feature with smooth user interactions.
- Ensured fast performance and mobile-first responsive layout.
- Followed modern frontend best practices for scalable development.

Jobify

Dec 2024 - Feb 2025

- Built a fully responsive job portal with modern UI for seamless experience across devices.
- Integrated job search, filters, and status tracking for efficient job management.
- Designed secure, scalable architecture with user authentication.
- Delivered project using agile workflow, improving team speed and collaboration.

SEAT BOOKING

Oct 2024 - Nov 2024

- Built an interactive seat booking system with real-time seat selection and pricing.
- Designed a clean, responsive UI with seat availability and movie selection
- Implemented dynamic logic for seat status, pricing, and booking validation.

Backroads app

Aug 2024 - Sep 2024

- Developed a responsive travel website using React.js, Tailwind CSS, and Typescript
- Designed clean UI with dynamic tour cards (date, price, location)
- Built fully responsive layout for all screen sizes
- Highlighted featured tours with location, duration, and pricing

EDUCATION & CERTIFICATIONS

B.Sc. Bachelor Degree

GGDSD college , Himachal Pradesh · India
GPA: 7.1/10

Coding Ninjas Certification

Front end | web dev, Back end | web dev
Grade: 89.9%

EXTRACURRICULAR ACTIVITIES

Personal Web Projects

Built and designed responsive web apps and UI components

Tech Exploration

Regularly explore and experiment with frontend tools

Self-Learning & Coding Practice

Study coding topics beyond syllabus via online resources and side projects
